Rajendra Oad Dakarmi

B.Tech in Computer Science | Aspiring Full-Stack Developer | Web Design Enthusiast | Skilled in Front-End & Back-End Technologies
Narasaraopeta, Andhra Pradesh, India

Summary

I am currently a third-year student pursuing B.Tech in Computer Science and Engineering at Narasaraopeta Institute of Technology. Alongside my academic studies, I have completed a comprehensive 6-month full-stack development course with BringBack Ed Tech (<https://bringbackedtech.com/>). This intensive program equipped me with practical skills in front-end and back-end technologies, enhancing my proficiency in web development.

During my course and through personal projects, I gained hands-on experience in designing and implementing responsive web applications. These experiences not only deepened my understanding of programming languages like JavaScript, HTML, CSS, and frameworks such as Bootstrap and Node.js but also strengthened my problem-solving abilities.

I enjoy web design and development, combining technical skills with creative ideas to make user-friendly websites. I've learned HTML, CSS, JavaScript, and Bootstrap for front-end development through projects and classes. I also have experience with Node.js and java language for back-end development.
